WITH 30+ SUPERFOODS

Over three generations ago, my family embarked on a mission to provide a range of nourishing recipes that pet parents would feel good about serving. So when we decided to create our Health Extension line, we opted to start with super premium ingredients and include a spectrum of beneficial nutrients in every tasty bite. Then we blended them precisely to deliver the optimal protein levels your pet needs to thrive. From my family to yours, I'm excited to have you learn more about the Health Extension difference. If you have any questions about feeding our recipes, please don't hesitate to call.

Making a difference.

TOGETHER WE CAN. PETS HELPING SCHOOLS IN NEED

Kids and pets share a bond like no other—so it's natural for a pet food maker to go all-out to help pets and children thrive.

Like our fur babies, teachers impact our lives in the most profound way. That's why we're proud to launch Teacher's Pet, a program to provide underfunded schools and teachers with the money and supplies to keep kids learning.

WE ARE PROUD TO BE PART OF THE PET SUSTAINABILITY COALITION

- We promote continual sustainable improvement of pet products in the global environment.
- We are committed to the overall well being of our customers, our pets, our employees and the environment in which we all live and work.
- We work for a collaborative pet industry that creates a positive impact for the communities and environment where we all do business.

WORKING TOGETHER

To empower independent and neighborhood pet retailers to work together as peers for the well being of North American Pets and Pet owners as they maintain a strong, sustainable and growing place at the heart of the Pet Industry

- We support a unified voice on issues impacting the independent pet channel
- Collaboratively, we want to be drivers of big improvements in the health and well being of animals
